

# Hazloc Training

## KNOWLEDGE SHARE

LabTest Certification Inc., an independent Certification Body (CB) with multiple accreditations, is authorized to evaluate and certify Hazardous Location Equipment for compliance with various national and international standards. Our program assesses such electrical and non-electrical equipment according to standards such as ANSI, UL, IEC, CSA, ISA, FM and EN; and conduct factory assessments (QAR/QAN).

### What You Will Learn

- > New Approach (Zones) vs Old Approach (Classes & Divisions)
- > Main difference between IECEx, ATEX & North American approvals
- > Harmonization of IEC 60079 series of standards
- > QAR/QAN Audits

LabTest can customize training to meet company specific needs to address:

- > Specific methods of protection/standards
- > QMS pre-assessment
- > Design concepts
- > Internal audit training

LabTest has established an excellent track record for fast, cost-effective and accurate results in a business where attention to detail is critical and cost is always a concern.

For organizations with global markets and/or multiple product categories, LabTest offers you a 'One-Stop-Solution' for both domestic and international markets.
