

Plumbing Products

PLUMBING PRODUCTS

LabTest Certifications Inc., an independent Certification Body (CB) with multiple accreditations, is authorized to evaluate plumbing products for safety, performance and health requirements. We test and certify plumbing products to ensure that they comply with applicable standards including ANSI, ASME, ASTM, CSA, NSF & UL as well as European Union Directives.

How LabTest Can Help

For companies seeking to market their plumbing products, LabTest will help you gain approval through the evaluation of such products as:

- > Hydromassage Bathtubs
- > Lavatories
- > Pipes
- > Showers
- > Faucets
- > Water Closets
- > Fixtures
- > Backflow Preventers
- > Piping Systems
- > Fittings
- > Valves
- > Kitchen Sinks

Also accredited by the Standards Council of Canada (SCC) to test and certify a wide variety of products including LED, electrical, gas, solar and marine devices, LabTest has established an excellent track record for fast, cost-effective and accurate results in a business where attention to detail is critical and cost is always a concern. For organizations with global markets and/or multiple product categories, LabTest offers you a "One-Stop-Solution" for both domestic and international markets.

LC Mark Fully Accredited! - A great alternative to CSA & UL - Get your product to market faster!
